Sajib Kumar Saha

Mirpur, Dhaka, Bangladesh

sksaha0167@gmail.com | 01677074199 | GitHub | LinkedIn

PROFILE

Computer Science fresh graduate with a strong foundation in programming, data structures and databases, gained through academic projects, a final-year AI/computer vision project and hands-on software testing (SQA) training. Skilled in Python, JavaScript and C/C++ with practical experience in REST APIs, SQL and Agile teamwork. A quick learner who writes clean code and pays close attention to quality, looking for an entry-level CSE-related role to apply and grow these skills.

EXPERIENCE

QA Trainee **| Astha IT** Jan, 2026 – May, 2026

- Applied STLC principles to execute manual testing in real-world scenarios.
- Conducted API validation using Postman and automated workflows with Newman and Python.
- Designed and executed UI automation scripts using Selenium and Pytest.
- Identified performance bottlenecks through load testing with JMeter and K6.

SKILLS

Programming Languages: Python | HTML5 | CSS3 | JavaScript | Java | PHP | C | C++

Tools & Platforms: Git | GitHub | Jira | Figma | Canva

Testing Skills: Manual Testing | API Testing | Automation Testing | UI Automation Testing | Performance Testing | Functional Testing | Black-box Testing | Test Case Design | Test Execution | Bug Reporting & Tracking

Testing Tools & Frameworks: Postman | Newman | Selenium WebDriver | Pytest | Allure Reporting | JMeter | K6

Databases & APIs: SQL | MySQL | REST API | CRUD Operations | HTTP Status Codes | JSON Validation

Soft Skills: Communication | Leadership | Time Management | Teamwork | Adaptability

Projects

API Testing — Student Management System | Postman · Newman · Node.js · Allure GitHub

- Tested Teacher APIs: login, CRUD operations, filter validations and negative test cases (401, 404).
- Automated test runs using Newman CLI with dynamic token handling and HTML report generation.

API Test Automation — Student Management System | Python · Pytest · Requests · Faker · Allure GitHub

- Built a modular Pytest framework with 18 test cases covering CRUD, filters and negative scenarios.
- Used Faker for dynamic test data; generated Allure and HTML reports with full assertion-level validation.

EDUCATION

Bachelor of Science in Computer Science and Engineering (CSE) 2022 – 2026 | CGPA: 3.3/4.00

United International University

- **Final Year Project:** A Computer Vision-Powered System for Road Condition Detection and Severity Score-Based Route Optimization in Bangladesh

Higher Secondary Certificate (HSC) | **Dhaka College** 2020 | GPA 5.00/5.00

Secondary School Certificate (SSC) | **Government Laboratory High School** 2018 | GPA 5.00/5.00

CO-CURRICULAR ACTIVITIES

Associate Event Management | **UIU APP FORUM** 2022 – 2024

Head of Media and Publication Department | **Shuhash** 2021 – 2024

Joint Secretary (JS) | **Science Club of The Laboratorians** 2017 – 2019
